

VANCOUVER CITY + CAPILANO SUSPENSION BRIDGE PARK

Explore, learn, and be amazed by Vancouver's soaring skyscrapers, architectural masterpieces, urban beaches, and coastal rainforests.

TOUR DESCRIPTION:

Vancouver's fascinating past and present come together in this engaging tour that crosses through urban city-scapes, seaside parks, and ancient rain forests. Begin with the highlights of downtown, including Canada Place, home of the 2010 Olympic Cauldron. Wind through impressive modern and historic architecture, passed the Arts and Financial Districts, and the fashion hub of Robson Street. Enter the 1,000-acre urban rainforest, Stanley Park, for a unique perspective of the city from a quiet forest setting. Visit the First Nations Totem Poles before whisking off to North Vancouver.

Continue across the Lions Gate Bridge to Vancouver's scenic North Shore, and the Capilano Suspension Bridge Park. Don't miss the impressive collection of First Nations artwork and the historic story centre. From the spectacular Cliffwalk, gaze out over towering cedars, and the Capilano River winding through the valley far below. Take an exhilarating walk across the Capilano Suspension Bridge to the other side where many unique and informative experiences await, including the Treetops Adventure.

Return to downtown Vancouver, via Stanley Park and English Bay, and get ready to engage all your senses as you step out into Granville Island Market. This market is an artisan haven for all things local and hand-made, including delicious food, coffee, tea, eclectic artwork, and west coast music. Carry on through bustling Chinatown, a tribute to the Far East. Continue to historic Gastown, the heart of Vancouver, where it all began.
